

# EuroSim Evaluation License Agreement Standard

This is an individual user license agreement (hereinafter referred to as 'License Agreement') for the use of the EuroSim Software in the version mentioned below. To be able to run EuroSim, a license key is needed. A license key will be issued only upon receipt of a fully completed and signed License Agreement. Upon signature of this License Agreement, Licensee agrees to be bound by its terms and conditions.

To this License Agreement the EuroSim Standard Terms & Conditions (issue August 2014) (hereinafter referred to as 'ESTC'), that are attached to this License Agreement, do apply. However, the conditions of this License Agreement do prevail.

## Product Information

The License Agreement concerns the following EuroSim Software:

**Product name:** EuroSim Mk7 Beta

**Version** (to be completed by EuroSim Consortium):

### Product summary:

The EuroSim Software allows the user, by means of an extensive set of Graphical User Interfaces and Application Programmer Interfaces to create, import and integrate models into an executable simulator. The generated simulator can then be used interactively or in batch mode to perform real simulations according to various prepared missions. EuroSim furthermore supports the recording and analysis of simulation data. The product consists of a number of executable binary files and binary object libraries, and is delivered as installable package according to the delivery method prescribed by the chosen operating system distribution.

### Product environment:

The environment that is required to run EuroSim is outlined in the Owners Manual, for each platform.

### Product documentation:

EuroSim product documentation is installed with the software as well as available via [www.eurosim.nl](http://www.eurosim.nl), and contains the following documents

- EuroSim User Manual
- EuroSim Software Release Note
- EuroSim Owner's Manual
- EuroSim FAQ
